

## *Lakeshore Nature Preserve First Annual Earth Week Events*

Come help us restore the Preserve by planting native wildflowers, sedges and grasses at one of our work parties.

**Tuesday, April 21**, 11:00am till 4:00pm at Willow Creeks Woods.

Willow Creek Woods is a known Native American archaeological site.

The site has been cleared of undesirable species to restore savanna structure.

This event will restore savanna composition by adding flowers, grasses and sedges.

Willow Creek Woods is located along the Lakeshore Path north of the Natatorium.

*&*

**Wednesday April 22**, 11:00am till 4:00pm at Central Lakeshore Path.

The shoreline was cleared of undesirable species during the winter 2008.

This event will restore wetland composition by adding flowers, grasses and sedges.

Central Lakeshore Path is located north of parking lot 60.

*&*

**Thursday, April 23**, 11:00am till 4:00pm at Tent Colony Woods.

During the summer and winter of 2008 undesirable species were removed.

This event will restore woodland composition by adding flowers, grasses and sedges.

Tent Colony Woods is located northwest of the Frautschi Point parking lot.

Bring only yourself. We will supply plants, trowels and gloves.
